

K.B.Yokesh

3D Artist and Game Designer

SUMMARY

I'm a 3D Artist and Game Designer with a B.Sc in Animation and VFX. I create games, environments, and interactive experiences using Unreal Engine, Unity, Blender, and Adobe tools. I've published mobile games and work at Skilpt on architectural visualization and 3D environments. I love solving creative problems and bringing ideas to life.

WORK EXPERIENCE

- Junior Unreal Engine Artist at **Skilpt Learning Educated**
- August 2024 – Present
Role: Architect Visualization, Environment Design, Interactive Application, VR Application, Moblie Game Development.

12th State Board - 80.33%
2020-2021
10th State Board – 75%
2018-2019

MY PROJECTS

Sticky Box – Personal Project (Unity 3D)

- Designed and developed a complete 3D game in Unity from concept to final implementation.
- Built core gameplay mechanics and refined player interactions for smooth and engaging gameplay.
- Created and integrated 3D assets, ensuring a cohesive visual style and polished experience.
- Implemented game logic and features using C# scripting.
- Designed UI/UX elements to guide player flow and enhance usability.
- Optimized performance and improved gameplay feel through testing and iteration.

Loop Portal – Game Jam Project

- Designed and developed a short puzzle game centered around looping portals and recursive transitions.
- Built levels that loop seamlessly, challenging players to think creatively and navigate repeating environments.
- Implemented portal mechanics, player movement, and puzzle interactions.
- Created simple but effective visual cues to guide players through loop-based puzzles.
- Collaborated and completed the project within the game jam time limit.
